PotashCorp and Free The Children have established an important partnership to improve agriculture and food security in developing regions around the world. As part of our partnership, PotashCorp is proud to present this Family First Workshop in our community.

Led by Craig Kielburger and other expert facilitators, this unique family-oriented workshop will engage you and your children in making social change. The experience will empower families to lend a hand and change the world. Families will leave inspired, with a plan for how they will make a difference.
